

Monday Morning, Come Rain

A flower can't change without a drop of rain
It'll only stay the same and fade away
Each hour of every day, I need You here with me
You make me see You're all I need come rain

CHORUS

Come rain on me

Wash all of me away

'Til only you remain

Come rain

Thank God I can see there's nothing left of me

It's all been washed away, I'm changed

I feel Your mercy, Your blood it covers me

You make me see You're all I need come rain

I can't explain it

How Your love pours on me

How You make me feel inside

Your truth surrounds me

Your power moves me

Into Your arms
