Mondo Generator, Cocaine Rodeo

"spoken:
Cocaine Rodeo
Cocaine

I need a drink to burn my throat
I need a girl to hang my coat
Wash my clothes and bring me food
I need a girl with a little attitude

Wake me up and get me high
Wake me up and get me high

Cocaine

Don't give me no lip when I'm at the bar
Don't give me no shit when I wreck your car
You wanna know, whose on the phone
Not for you bitch, just leave it alone

Wake me up and get me high
Wake me up and get me high

Cocaine

Wake me up, wake me up and get me high

Did that sound too much like Axl Rose at the end or something?
