

# Mondo Grosso, Blaze It Up

Go, strike the flint  
If you think it can make a spark  
Stack fuel for a fire  
If there's a chance that this will burn  
Guard off the rain  
From wind brewing in the dark  
And after you do  
I still might just blow you off and turn away

If you want to light my heart  
Use a candle, not your Bic  
Put up on dry land  
Sea of Love is full of drips  
Pour the petrol on the cloth  
Torch gripped tight in your fist  
If you think you can be  
My cardiac arsonist

Blaze it up  
Blaze it upBlaze it up  
Blaze my heart tonight

You don't really think that you  
Can light my soul afire  
With dried up roses and a Zippo  
My outer shell is fireproof  
My wick has just ignited  
So you had best be taking cover  
Set fireGo higher  
Feed ourDesire  
No neverWhatever  
Oh we'reForever
