

Moneen, Are We Really Happy With Who We Are

You said you want it.
You said you need it.
What you don't know is I know,
That you can't get it.

You said you know me.
You know nothing at all.
You said you hate me,
Well believe me I hate you too.

Stop stand down wait,
I don't want to go.
Send me somewhere warm.
Stop stand down wait,
I don't want to go.

We want it all.
They try to stop you from dreaming.
They're there to make your life hell.
Just try to stop me from dreaming believing.

Are you really happy?
Ask yourself this time.

Are you really happy with who you are right now?
You said you want it
You said you need it...
