

Moneen, Start Angry... End Mad

Screw you and die I hope you burn.
You think your worth more that you earned.
Your nothing your worthless excpet for these verses.
Out with the new in with the old
(die die die die.....)

Honestly makes you do the strangest things like act angry.
Its your life your move your chance to make good of the bad.
Cant hide the fact that you still lied to us, you lied to them.
Put the past behind make it good theres one more thing to say.
Say it... no...

Two years is a long time to pretend.
Now we start again.
We've got to stay until the end.
We've got to say it.
