

Monica, Just One Of Those Days

So Let them say it's wrong for me to Love you
They can never feel the way that I do when we kiss
When we're close like this
They can't see inside my soul
They cant know the love we know
All they do is waste thier time
They can never change my mind

Chrous:

That is what my heart says
That is what I listen to
That's what my heart feels
That tells me what to do
That is what my heart knows
That's the only only truth I know is real
All I hear is what my heart says to me
What my heart says
Let them say that I'm a fool
To fall so deeply
'Cause they will never ever live
Life so completely
How can they even talk that way
That can't see through my eyes
They cant feel this love inside
All thier words dont mean a thing
They can't change the way I feel

Chorus

And I have never felt so sure 'bout anything
See you are the one,
The one that I need
It doesnt matter what they think
Or what they say
I'm loving you anyway
All I know is what I feel

Chorus

What my heart says
What my heart says
