Monica, Just One Of Those Days

So Let them say it's wrong for me to Love you They can never feel the way that I do when we kiss When we're close like this They can't see inside my soul They cant know the love we know All they do is waste thier time They can never change my mind Chrous:
That is what my heart says That is what I listen to

That is what my heart says
That is what I listen to
That's what my heart feels
That tells me what to do
That is what my heart knows
That's the only only truth I know is real
All I hear is what my heart says to me
What my heart says
Let them say that I'm a fool

To fall so deeply
'Cause they will never ever live
Life so completely
How can they even talk that way
That can't see through my eyes

That can't see through my eyes
They cant feel this love inside
All thier words dont mean a thing
They can't change the way I feel
Chorus

Chorus
And I have never felt so sure 'bout anything See you are the one,
The one that I need
It doesnt matter what they think
Or what they say
I'm loving you anyway
All I know is what I feel
Chorus

What my heart says What my heart says
