

Monifah, Fallin' In Love

(Intro)

I spent a lot of time
Looking for the right thing
In and out, around the world
Searching, I think I found it

1 - Fallin' in love
Hoping that you say you love me
I got all this love
When you get it, you got to keep it

Fallin' in love
Hoping that you say you want me
I got all this love
When you get it, you got to keep it

Sexually you seemed to be
Everything I wanted in a man
Treated me respectfully
Holding me, showing you care
Can it be, you and me
Making me happily endlessly
Baby yeah

Repeat 1

You know it gets harder
To let you go when you got to go
And I know you gotta go sometimes
But I can't get you off my mind
Put your hand around my waistline
And show me what your kisses taste like
Taste like sweet rain falling down

Repeat 1

If I close my eyes tonight
Just know that I love you forever
You are the sun, you are the joy in my life
And now that you are here
Let me let you know how I love you so
You're the only one I want forever
Since I've fallen in love with you

Falling in love
Got to show you how I feel
To let you know that this love is real

Falling in love
Got to show you just how I feel
To let you know that this love is real

2 - Falling in love
(Got to show you just how I feel)
I'm thinking of love
Since I've fallen in love with you
All this love
(To let you know that this love is real)

Repeat 2 til end of song
