Get up on that floor, shake that ass  
Show 'em how bad you are

Drop dead in my Gucci threads  
Hair real wild with the brightest smile  
I'm feeling hot, I'm ready to get loud  
And in your mind I leave you with no doubt  
That I'm a...

Bad girl, bad girl

You're such a little bad girl  
C'mon bad, bad, bad, bad girl

Mo' none of the hoes can stop our flow  
We've been doing this since 84  
Iron maiden, don't let the hype get it twisted  
I'm bad to the bone, bitch check this  
What you gettin' now, we've don' seen in triplets  
Before record deals, we were still chicken  
And we's the kind of chicks that they love to hate  
Playin' both sides of the game and still hold weight  
Bad girls take yours in your own state  
Bad girls break rules of taboo in the worst way  
But when its said and done, we still get the pay  
Without videos or a little bit of fame  
Bad girls never depend on the next nigga's change  
His dough is only here just to add to our cake  
Follow that rule and ya'll gon' to be okay  
We learned from the baddest  
Remember our names  
Uh, what's my motherf\*\*kin' name

Repeat 1 until fade
