

Monifah, Nobody's Body

Original, original
And I say, shake it down
Original, shake it down

1 - I don't want nobody's body wanting me
All I want is somebody to hold on to
I don't want nobody's body wanting me
All I want is somebody to hold onto

Let me tell you
I've been searching high and low
Trying to find somebody who really understands my flow
Don't want nobody who's somebody else's body
I just want someone who knows all about me

Repeat 1

Every day and every night
I often long for someone to treat me right
Lonely times are here again
But I have faith that better days will soon begin

And I get tired of somebody else's man holding me
I need a man who's single and free, yeah
Someone to call my own
To be there when I get home
To understand me and love me for me

Repeat 1
