

# Monika Ferens, Bang! Bang!

Cant believe how many  
Times Ive been a victim of you  
Im surrounded by people  
But Ive never been next to you  
Thought my eyes dont lie  
And I knew what Ive got  
Guess my irises are too dark to see the light  
Who knew what Id do  
When Ill expose you  
Somebody take the bullets out of the gun  
Youre unprotected  
By your adultery  
Its just a pass to the other side  
Better watch your back  
Ill bite back

I was born to judge you leniently

[Chorus]

Enriched by my expense  
Perfect defense without a flaw  
Successful in the fraud  
Modest and proud all along  
Told me Im an angel  
Now Ive become a stranger  
In my lovers eyes  
You must be a dare-devil  
To defend your own lies  
Bang, bang its over now  
Bang, bang its over now  
Ill kill you and tomorrow  
The world will figure it out  
One dead and the scandals ready  
cause its our food  
But youll stay innocent  
Nobody saw your crime  
Though youve killed me just too many times  
Such a great murder  
Without the mercy  
Always awake to rip out my throat  
Youre unprotected  
By your adultery  
Its just a pass to the other side  
Better watch your back  
Ill bite back

I was born to judge you leniently

[Chorus]

The nights beautiful  
Great time for your funeral, yeah  
The nights beautiful  
Great time for your funeral, yeah  
Enriched by my expense  
Perfect defense without a flaw  
You must be a dare-devil  
To defend your own lies  
Bang, bang its over now  
Bang, bang its over now  
Can you hear it baby?  
(Bang, bang)  
Can you hear it baby?  
(Bang, bang)  
Bang, bang, bang, bang!  
(Bang, bang)  
Ive imposed a price  
Now regret your lies!
