

Monika Ferens, Get Over You (Stop This Song)

I promised myself yesterday
I wont write about you again
Ive written about you too much
Cause yet Ive got nothing to gain
I got my own urgent matters
They have nothing to do with you
You dont bring a thing to my life
But the dead memories of you
But after all....

[Chorus]

I guess its not going to be the last song
I keep on wasting you and yourself
Cause its so damn hard
To get rid of you
It only does harm
And pain you cause
I guess I will write more things about this
What you put me through
I just cant get over you
I cant get over you....I just cant
If you disappeared for a year
And I would forget you exist
I know Id be back to all of this
If you were back to my life
Its like my head is your home
Where you sleep, you dream and you live
Its like youre controlling my life
Youre gone and I keep feeling lonesome
So now I see...

[Chorus]

Somebody stop this fucking song
I dont wanna sing this song
Somebody stop this god damn song
I dont wanna sing this song along

[Chorus]

I guess Im not going to sing the last song
I will waste more on you and yourself
Cause its so damn hard
To get rid of you
I know it does harm
But what can I do?
If I involuntarily write about this
What you put me through
I just cant get over you
I cant get over you....I just cant
Somebody stop this fucking song
I dont wanna sing this song!!
Somebody stop this god damn song
I dont wanna sing this song along!!
Stop it right now!!
