

Monika Ferens, Hate To Love

I was ready for everything
For every awful word
But who knew heart wouldnt handle these few words?
Ive never felt so much miserable
Now Ive got something to say
I-Hate-That-I-Love-You
[Chorus]
I try to convince myself
Youre worth less than last years sorrow
But details always mean a lot
I hate that I love you
You made my heart look forward to tomorrow
But grief was my daily routine
I would never wish you bad
But I wish you were gone
Cause Im tired of watching if you are going through the door
Ive never felt so much overcome
Thats why I wanna say
I-Hate-That-I-Love-You
[Chorus]
I want you to leave
But I know that anything is better than to stay alone
It hurts to love you
But at the same time its better not to conquer you
Cause I know I cant lose you
[Chorus]
I hate to love you 4x
