

Monika Ferens, Lullaby

I forgot how the spring tastes
Cause without you the trees are always covered with the snow
And I dont remember the moutains
I dont remeber when Ive heard the birds the last time
Sane abandoned me when I realized
When I hugged you was the good bye
I saw you in my dreams
I can sacrifice and never wake up

[Chorus]

Nights are meant for dreaming
Dreaming about you
And I dread the morning when
My dreaming ends
Lullaby goes on eternally
And I sing myself to sleep
But when I open them Im alone again
Play the song again
Im stung by 5 zillion pills inside
And your photos are destroyed by months, years, tears
But they still remind me the times
When waking up was exciting to see your smile
Sane abandoned me when I realized
Only nights heals the scars I hold inside
I felt you in my dreams
I can sacrifice and never wake up

[Chorus]

When I open them Im alone again
Without you, my lullaby, without you Im insane

[Chorus]

Dont wake me up...
I cant
I cant wake up
