

# Monika Ferens, Permission

The pain that hides you  
The love that hurts you  
I'd share my life with you  
In our immortality  
Realness we idolize  
Cause the main for us is  
The way we are, we are

[Chorus]

Cant forget about you  
Cant talk about you  
Cant dream about you  
Cant be about you  
Living without you  
But listening to your voice  
The hope that raises  
Inside of you  
Dies inside of me  
Leave me not behind  
I'm already here  
Cause because of you  
I won't run away

[Chorus]

Cant fight about you  
Cant breath without you  
Cant scream about you  
No way to make it through  
Cant forget about you  
Cant breath without you  
Cant dream about you  
Cant scream about you!  
Never!!...
