

Monika Ferens, Pest

We live in a world where people feed by rumours
Still dont know why do I listen to this trash
And I cant stand you have made those stories
And they knew it all
Except me

[Chorus]

Im disloyal, Im wicked
Everybody knew it expect me
Im diffucult, Im shallow
Everybody knew me expect me
Youre my pest

We know everything weve never heard a thing about
Your soul was a diamond with too deep flaws
Now I turn away with the disgust
From you

[Chorus]

Youre disloyal, youre wicked
I knew it expect everybody else
Youre my death, youre my pain
Everybody loved you expect me
Youre my pest

Dont try to make another stories about my life
Cause my revenge will be colder than the ice

[Chorus]

Were craving for the attention
Everybody knows it including us
Were inconsistent, were bad
Everybody knows it but no one knows
Youre my pest
