

Monika Ferens, Really Happy

Oh Ive been here
Thousand times before
But youve never
Been here spiritually
You took a look
But then you turned your head
Its nothing new
But it always feels so strange
I know you are deceiving
But the question is
Who are you misleading?
Because its not me!
[Chorus]
It doesnt make any sense no longer
But pain wont ever kill me
Your gone has only made me stronger
Basically
Your lies, your fights opened my eyes
And now I can finally see
After so long time
Im really, really, really, really, really happy
Oh its so funny
When you start to st-st-st-stutter
Girl youre the one
There wont be another
Its not hard to tell me that Im not
What you need anymore
People aint normal thats for sure
You know Im not believing
But the question is
Is that you whos grieving?
Because I am not
[Chorus]
My times too precious
For calling you my treasure
Your excuses make me laugh on the floor
I dont love you anymore
Im really, really, really, really, really happy!
[Chorus]
