

Monika Ferens, Ressurect You

Its so obvious to say
People come but they never stay
The death is something timeless
And it justifies lots of things
But nothing is a good excuse
Why did it all happen to you?
If God could tell me why did he take you
Take you away from us

[Chorus]
Sometimes I wish I could ressurect you
The world without you became so meaningless
Id lie saying I didnt cry for you
Cause I cried a river and I will cry much more
I cant ressurect you and it hurts
Now the questions arise
Why you and couldnt we help you?
Nobody cares until the hurt is on
But then its too late for anything
I comfort you in my dreams
But after the night I can just cry
My heart stopped pounding because of this
I hope you hear me sing

[Chorus]
I cant ressurect you and it hurts like damn
Wanna go back way back when
We could protect you from the pain
You would start your life over again
Somebody tell me youre still alive
And all I thought is just a stupid joke
Why didnt we care?
[Chorus]
