

# Monika Ferens, Spirit Photography

yes, you see her...  
Ive observed you  
All day long and night  
And very interesting things  
You hide deep inside  
No sympathy for me  
But still so full of love  
Too bad, love not for me  
Mine passed away before I died  
Yes it really pissed me off  
So Im not meant to keep off  
Ive got a mission for us both  
[Refren]  
Do you know the spirit photography?  
So look at photos after the death of me  
Is everything really in its place?  
Cause youll seem to see my face  
Youre gonna say she wasnt there  
But from now on Im everywhere  
Everywhere you will go  
Youre gonna see  
Youll see me  
On spirit photography  
Too bad its too late  
To talk up face to face  
But I stayed here with you  
After what you put us through  
You were when I was scared  
Though you scared me to death  
Now when youre afraid  
Im everything youre scare of  
Cause you really pissed me off  
So Im not meant to keep off  
Ive got a mission for us both  
[Chorus]  
Spirit photography  
Youll see me, youll see me  
You will see...you will see  
That you shouldve played fair  
Its not like the concrete thing  
Seperates me from the living world  
You cannot sleep so calm  
Im gonna pull you down  
Again and again and again  
[Chorus]
