

# Monika Ferens, Tomorrow

Once you were my grip  
A support when I got flip  
You take my hand and tell where to do  
Freedom is the deepest form  
Now seems the dream  
I live turned into a scream  
Humming like echo in my ear  
Screaming go I've never wanted to hear  
Today is the day  
When my living ends

[Chorus]

We all live and we all die  
But life's in hurry to pass by  
You were born to live this way  
It was hard but now it's okay  
You didn't need precious to smile  
Now you ain't able to wake up  
We have hidden beyond the world  
Begging for something more  
We treated life like something to have fun  
Now we can't run after the sun  
You didn't want to be dead  
You thought I enjoy that

[Chorus]

We all live and we all die  
But life's in hurry to pass by  
I'll forgive cause tomorrow may not come  
I thought I can change your life  
In something worth living  
But we can't survive our own mistakes  
Today is the day  
When my living ends

[Chorus 3x]

Today is the day  
When my living ends
