

Monika Ferens, We Don't Exist

Death is a thing I still try to tame
Cause it doesn't scare me anymore
It's our refuge from the world's eyes
Now nobody can see us together
We're together forever
Away from troubles forever
Life never understood us
Now even in death our song goes on
[Chorus]
Let's keep on pretending it's our last day
Let's pretend that we are dead
Nobody will see us, nobody disturbs us
Let's pretend we don't exist
They said the time will cure scars
But who would live without you?
I'm not afraid of the cold ground
If I know there's you right beside me
We'll be together now
And they can't do anything now
'Cause life is over for us
And even in death my love still feels fresh
[Chorus]
Let's pretend
We are dead, we don't exist, we are dead
[Chorus]
