

Monika Ferens, You Lied To Me

Its true, it made me a little insane
But let me prove you, nothing you say is always true
Its only your imagination
You try to give a fake sensation
Its only your imagination
Nothing but sick foundation

[Chorus]

Im able to justify you
But how could you doubt in me?
Thought I changed by what I know and do
But Im still like you
You promised me but you lied to me
Someday youre gonna forsake my face
And next day you wont know
Who I was when I was with you
Its only your anxiety
That you hide so caressly
Its only a voice in your head
Thats waiting to be already fed

[Chorus]

But Ill be fine
Ill be all right
Ill be okay (4x)
I am really strong enough
I may seem not
But Ill be fine anywhere I am

[Chorus]

Its only your imagination
You try to give a fake sensation
Its only your imagination
Nothing but sick foundation
Its true
It made me a little insane
