

# Monika Ferens, You Lied To Me

Its true, it made me a little insane  
But let me prove you, nothing you say is always true  
Its only your imagination  
You try to give a fake sensation  
Its only your imagination  
Nothing but sick foundation

[Chorus]

Im able to justify you  
But how could you doubt in me?  
Thought I changed by what I know and do  
But Im still like you  
You promised me but you lied to me  
Someday youre gonna forsake my face  
And next day you wont know  
Who I was when I was with you  
Its only your anxiety  
That you hide so caressly  
Its only a voice in your head  
Thats waiting to be already fed

[Chorus]

But Ill be fine  
Ill be all right  
Ill be okay (4x)  
I am really strong enough  
I may seem not  
But Ill be fine anywhere I am

[Chorus]

Its only your imagination  
You try to give a fake sensation  
Its only your imagination  
Nothing but sick foundation  
Its true  
It made me a little insane
