

Monoir, Incredible (feat. Dharia)

Breezy summer and your bright blue eyes
We're together in our world
We've no time for lies

Juste un peu d'amour chaque jour
Comme un feu je danse toujours pour toi mec
Si tu pars tout serait absurde
Donc viens

Close your eyes
It's incredible
That we've come to this
We're so young
Almost magical
It's my heart that sings
Let's just save this moment for later
In our older dreams
Half-grown heart
How adorable
But there's nothing more real than this

Million colors
Stuck inside those eyes
Crave to know what's in there
Show me your darkest light

I'm a flame and I burn
Expect love in return
Feel the world in the summer skies
You are here, you're with me
Like a sweet melody
Matching chords, make it alright

T'es confus, un amour de plus
Un amour de plus
Un chemin trop long
Un chemin de plus
Mais t'es perdu

Si tu m'aimes dis moi c'est sur
Car je sens ton coueur toujours
Si tu pars tout serait absurde
Donc viens

Close your eyes
It's incredible
That we've come to this
We're so young
Almost magical
It's my heart that sings
Let's just save this moment for later
In our older dreams
Half-grown heart
How adorable
But there's nothing more real than this

Tell me just what you show me
Chase me like you don't know me
Love me just like you told me
Kill my need to be lonely

Let's just save this moment for later
In our older dreams
Half-grown heart

How adorable
But there's nothing more real than this

Close your eyes
It's incredible
That we've come to this
We're so young
Almost magical
It's my heart that sings
Let's just save this moment for later
In our older dreams
Half-grown heart
How adorable
But there's nothing more real than this
