

Monoral, I Like It

Please, believe yourself to carry on.
How can I resist from saying why?
Still, I always see you come and go.
It's not what I hate the most.

But please, don't make me see, don't make me
Like it, cause I like it, would you be lonely with me?
If you could only talk, and I don't
Like it, I don't care for it, holding what you see,
And I don't like it, I don't care for it, holding what you...

Wait, until you see me get along.
It takes a while to save the money lost.
Still, it makes me feel I'm doing wrong.
There's nothing wrong with what I want.

What I do feel?

Please, don't make me see, don't make me
Like it, cause I like it, would you be lonely with me?
If you could only talk, and I don't
Like it, I don't care for it, holding what you see,
and I don't like it, I don't care for it, holding what you see.
