

Monsoon, Psychedelic mad house

You can hold me one more time
Hold me kiss me hug me tight
Through the dark and precious night
Take me to another hideout
Its a slow motion process
A spiral dive into nothingness
Dont you let it bring me down
Take me far off out of this town

Chorus:

I just wanna make you feel right
Make you feel all mine
I just want you to realise
Tomorrow might well never come
Let me stroke your blessed face
Touch that sweet invitation
Just a slow motion embrace
Lust for life intoxication

Chorus

Youve got to tell me what you
Just tell me what you want
And I can make it happen
Spellbound
Im all shook up and edgy and craving
For a ride
Stuck in psychedelic
Mad house
Sup egotistic liquid surprise
Horrendous and luscious weirdos running around
