

Monsta X, MIDDLE OF THE NIGHT

you make my want to run it
all back
nobody's ever done me like that
I thought I'd never ever need you
now all I want to do is see you
I shouldn't let it happen so fast

girl, who'd you have to break me
like that
your love is nothing
but a see-through
I tell myself that
I should leave you

but who
I don't wanna know
where you wanna go
who you're talking home
cause I can't lose everything I know
I hate sleeping alone
I am picking up the phone

and I'll be on the way
in the middle of the night
cause I can never wait
for the morning to rise
we're kissing in the car
underneath of the night
you got me
you got me
and I'll be on te way
in the middle of the night
it's something in the way
you've been running into my mind
if you want me to stay
for the rest of my life
you got me
you got me

remember al the nights
like this
sleeping in the model 6
we'll take all of the back
streets on
making sure your friends
don't know

I've never thought
it get like this
still think about the very first kiss
but I could never lie to you
I am going out of my mind for you

but who
I don't wanna know
where you wanna go
who you're talking home
cause I can't lose everything I know
I hate sleeping alone
I am picking up the phone

and I'll be on the way
in the middle of the night
cause I can never wait

for the morning to rise
we're kissing in the car
underneath of the night
you got me
you got me
and I'll be on the way
in the middle of the night
it's something in the way
you've been running into my mind
if you want me to stay
for the rest of my life
you got me
you got me
