

# Monster, Fire (Burn)

Please don't waste your time with me  
If you wanna help me  
'Cause I don't care what you might say  
So please don't try to help me  
Don't try to help me, no...  
'Cause if there's nothing left for me  
I'm sure there's nothing left for you  
So we will feel the...  
Fire, burnin', fire burnin' our souls  
Fire, burnin', fire  
Deep there they will burn our souls  
You have always been so proud  
In the role of the good guy  
But if they knew the things you do  
They'll see I am cleaner than you might  
So if I'll burn you will burn too  
And the priest, that holy man  
Is laying with another man  
The father, drowning in cocaine  
Will give a better sermon then  
People killing just for fun  
The rulers of this fuckin' world  
All those whores there down the road  
And people just like you and me  
Will always burn  
Deep there than you'll know  
That you're just not better than  
Those there that will burn our souls
