

Monster, Lust For A Vampyr

In the light of the moon
When the stars are in bloom
On a hot night in June
That's when I call for you
I've been working the whole day long
Getting older while you stay young
Give me shelter, the night is dark
Live forever..

When you meet anyone you can find
Sink your teeth, your in love for one night
As you sleep in the day you are mine
I just want your love, so don't waste my time
Take me now in the dark

I can't wait, make your mark..
I've been working the whole day long
Getting older while you stay young
Give me shelter, the night is dark
Live forever...

When you meet anyone you can find
Sink your teeth, your in love for one night
As you sleep in the day you are mine
I just want your love, so don't waste my time

By the light of the sun
I knew your time had come
I opened the box

And in just one go, you had gone
When you meet anyone you can find
Sink your teeth, your in love for one night
As you sleep in the day you are mine
I just want your love, so don't waste my time
When you meet anyone you can find
Sink your teeth, your in love for one night
As you sleep in the day you are mine
I just want your love, so don't waste my time
