

# Monster Magnet, Doomsday

Sleep and sleep again  
You might as well stay in  
Another happy day  
A funeral in Berlin

What can I do with you  
Your layers and your doors  
Pathetic little hypocrite  
Your calling me a whore

And every drop of red just turns our white to rust  
All you do is take away the only thing I love  
You don't have to dig for motives  
You're just too easy to read  
Rip your wound a little wider  
So all the dirt can get in

It's doomsday it's doomsday  
It's closing round my head  
It's forcing tumors down my throat  
It's tucking me in bed

And all your hopes and dreams  
Mean nothing to me now  
It's absolute Apocalypse  
You stupid fucking cow  
And as you drop the fire  
And as you burn the hive  
I'm standing on ground zero baby  
Hollow but alive

I knew you'd chicken baby  
Your just too easy to read  
Go on and cut the lasso  
There's nothing left in me to bleed

It's doomsday, it's doomsday
