

# Monster Magnet, Elephant Bell

Move over little insect  
It's time for you to go  
I don't wanna have to tell you twice  
You come to me tomorrow  
Saying you found my head in the fields  
I couldn't swear that it's mine  
Been talking to the bottle  
And it roars out how I feel  
There's nothing, nothing here  
There's a doorway and a fuel pump  
The taste of another mind  
You can bake me in your cancer  
You can cook me in your spoon  
Put a bowl in my heart now  
Don't know who you're praying to  
Ain't gonna stand in the rocket's shadow  
My mama's waiting for me on the moon  
My dick just got a million times bigger  
I'll be pumping Andromeda soon  
Rise boy, rise boy  
Ain't gonna stand in the rocket's shadow  
My mama's waiting for me on the moon  
My dick just got a million times bigger  
I'll be pumping Andromeda soon  
Rise boy, rise boy  
Rise boy, rise boy
