

# Monster, Metallic Mission

I see the clock striking midnight  
Chains are clinking at the corners  
Military marching can be heard  
Lots of shadows under the haze  
In every corner theres a face  
In every face you see the power  
In every man the will  
The confidence in us all  
The union is with us  
The strength is with us  
All together well keep fighting for our goal  
Metallic mission, metallic mission  
Metallic mission yeah!  
Screaming out loud,  
We will keep on fighting
