

# Monstrosity, Mirrors Of Reason

Magnetic energies  
Gravitating towards the fatal plunge  
Reflections of your dying world  
Penetrating core of existence

Your mind is dying  
The race is blinding you can't decide  
Drawing from your power  
Electrifying current surging your fears uncoiling

The mirrors of reason

But your fears keep you guessing  
Fading fast in the rushing flow that leaves you in the past  
Reasons deter your strength  
And your hopes have been strangled leaving questions of reality

Questions of this reality!

Magnetic energies  
Gravitating towards the fatal plunge  
Reflections of your dying world  
Penetrating core of existence
