

# Montgomery Gentry, Lie Before You Leave

Yea I know it's over  
I won't hide from that  
And once that door closes  
You won't be commin' back  
I've only one favor,  
left to ask, of you,  
If your heart's not hurting too

## CHORUS

Lie before you leave,  
And tell me we were somthin'  
Say that leavin' me,  
Will be your great regret  
Say it sweet enough that one day  
It will feel like it was love, that we made  
Do this thing for me,  
Set my mind at ease  
Lie before you leave

I've never doubted  
You made me believe  
That deep down inside,  
You really cared for me  
But if that was just some kind,  
Of spell you weaved, thats fine  
As long as you work that magic one more time

Lie before you leave,  
And tell me we were somthin'  
Say that leavin' me,  
Will be your great regret  
Say it sweet enough that one day  
It will feel like it was love, that we made  
Do this thing for me,  
Set my mind at ease  
Lie before you leave

Lie before you leave,  
And tell me we were somthin'  
Say that leavin' me,  
Will be your great regret  
Say it sweet enough that one day  
It will feel like it was love, that we made  
Do this thing for me,  
Set my mind at ease  
Lie before you leave

Lie before you leave
