

Montgomery John Michael, I Couldn't Dream

When we're this close I can almost
Hear your heart beat
As you softly breathe lyin' here with me
Your skin's like a canvas
Being painted by moonbeams
Truly a masterpiece
To you it comes naturally

CHORUS

I couldn't dream a love better than this
Could never imagine such a kiss
Or the way your body feels in my arms
Old Mister Sandman I'll resist
'Cause if I were asleep look at all I'd miss
I couldn't dream a love better than this
It's getting late
But I don't want to close my eyes
I don't care about time
Or the world outside
We're movin' to the music playin' in our minds
The mood's just right for staying up all night
Repeat CHORUS
I've had fantasies
But none compare to reality
Repeat CHORUS
I could get no sleep
I couldn't dream a love better than this
