

Monty's Fan Club, Handy With The Steel

Watching tv is such a big surprise to me
whats wrong with kids these days?
It starts with family and it ends with tradgedy
what can we do or say?
open your eyes you'll see what comes you'll regret
Then please take my hand it will be all set,
shooting off and all is still being handy with the steel
just think of how they'll feel

Cuz I'm here for you now
theres no way theres no how
I'll let you stand alone in the dark I'll take you home,
if your wonderinge whos there
and theres no one that cares
always remember that I'm here
I'll try to take away your fears

watching little screens has shown so much of a calamity
the medias messed up today
they thrive on negativitey and erase positivitey
what can we do or say?
open your minds and see its not all their fault
point all ur fingers to this wound, add salt.
Shooting off and all is still being handy with the steel,
just think of how they'll feel

Cuz I'm here for you now
theres no way theres no how
I'll let you stand alone in the dark 'll take you home,
if your wondering whos there
and theres no one that cares
always remember that I'm here
I'll try to take away your fears

And if this problem hits home i home it does, it could
and if this problem hits home, i hope it does, it should, yea it should
if mom and dad were here would kids still have fear
would they go and lose control
and yea we're not the brady bunch
but I still have a hunch this long last problem will
yea this long last problem will grow

Cuz I'm here for you now
theres no way theres no how
I'll let you stand alone in the dark 'll take you home,
if your wondering whos there
and theres no one that cares
always remember that I'm here
I'll try to take away your fears
(I'll try to take away your fears
I'll try to take away your fears)
