

# Moonbabies, Take Me To The Ballroom

let me go around blue skies  
buy me drinks till i fall back  
i want him around tonight  
cause if good means wrong  
you can sing along  
but if good means right  
i will end this fight

what if i go insane now  
will you wait for my comeback?  
i'll probably be no good to have  
just to sing this song  
make it turn to stone

sour eyes - thinking you're right  
it's fine and shallow  
and while you find it - in time  
you'll be the one who's shadowed

let me flow around blue life  
then if i get a fall back  
i won't turn around to cry  
cause if good means wrong  
you can sing along  
but if good means right  
i will end this fight

sour eyes - thinking you're right  
it's fine and shallow  
and while you find it - in time  
you'll be the one who's shadowed
