

# Moonbabies, War On Sound

Oh Sunday rest  
I'm a mess  
put me in your arms  
I called your home  
heard the tone  
just wanna be a part of  
It could be wrong but i tried  
to tell you last night  
I found it hard to explain  
I sleep and I can't talk

Don't say a word  
my head ain't feeling right  
stay where you belong inside

Hey! It will be alright  
I just found myself in ways I couldn't help  
it will be alright  
just find a state where everything's passing by  
I just found myself in ways I couldn't help

Sunday rest  
still a mess  
put me in your arms  
See when she's down  
girlie charm  
Just wanna have a part of  
I found it hard but i tried to tell you last night  
The planet's grown turned to stone /see you on the safe side?

Don't say a word  
my head ain't feeling right  
stay where you belong inside

Hey! It will be alright  
I just found myself in ways I couldn't help  
it will be alright  
just find a state where everything's passing by  
I just found myself in ways I couldn't help
