

# Moonblood, Kingdom Of Forgotten Dreams

Knights full of fear, knights full of hate  
Endless long it appear me  
Dream tyrannile my sleep  
Dreams about death  
Dreams about power  
For everybody it is open  
The gate to the kingdom of forgotten dreams  
Everybody can enter it  
At night, when your body falls in sleep  
Is it the best time  
Slowly the things begin to turn around you  
What once was is again to get over  
What still comes... You can see it  
Demos take possession of you  
Inyour dreams  
They try to take you on the other side  
Dreams which are long forgotten  
Live again in you  
Scatter your thoughts, torment you  
The demon of dreams torments you  
The gate wide opened  
He stretched out his claws  
After new victims it grip  
When they dream  
He'll find them in their dreams  
And don't let them again awake  
And endless they'll sleep  
Endless they dream  
Imprisoned  
In the kingdom of forgotten dreams  
Imprisoned in the hell of eternity
