

# Morcheeba, Lighten Up

I can feel a storm brewing over nothing  
We were having fun  
There's no harm done there  
You need attention  
I can see you're sulking  
It's about time that you learn to share

Lighten up  
It's gonna brighten up  
I want to play  
You're in the way of our sunshine  
Lighten up  
It's gonna brighten up  
Just let it go  
And I will throw you a lifeline

I don't what happened  
To those resolutions  
We think we found the truth at last  
When it escapes  
Inside the mirror is a false impression  
I can feel so swollen  
When I'm in good shape

Lighten up  
It's gonna brighten up  
I want to play  
You're in the way of our sunshine  
Lighten up  
It's gonna brighten up  
Just let it go  
And I will throw you a lifeline

Lighten up  
It's gonna brighten up  
I want to play  
You're in the way of our sunshine  
Lighten up  
It's gonna brighten up  
Just let it go  
And I will throw you a lifeline

Lighten up  
It's gonna brighten up  
I want to play  
You're in the way of our sunshine  
Lighten up  
It's gonna brighten up  
Just let it go  
And I will throw you a lifeline
