Morcheeba, Lighten Up

I can feel a storm brewing over nothing We were having fun There's no harm done there You need attention I can see you're sulking It's about time that you learn to share

Lighten up
It's gonna brighten up
I want to play
You're in the way of our sunshine
Lighten up
It's gonna brighten up
Just let it go
And I will throw you a lifeline

I don't what happened
To those resolutions
We think we found the truth at last
When it escapes
Inside the mirror is a false impression
I can feel so swollen
When I'm in good shape

Lighten up
It's gonna brighten up
I want to play
You're in the way of our sunshine
Lighten up
It's gonna brighten up
Just let it go
And I will throw you a lifeline

Lighten up
It's gonna brighten up
I want to play
You're in the way of our sunshine
Lighten up
It's gonna brighten up
Just let it go
And I will throw you a lifeline

Lighten up
It's gonna brighten up
I want to play
You're in the way of our sunshine
Lighten up
It's gonna brighten up
Just let it go
And I will throw you a lifeline
