Morcheeba, Part Of The Process

Angry faces, cursing loud, Changing places, falling proud Behind the bomb, no one cares, Time is money We're taught to tear

It's all part of the process We all love looking down All we want is some success But the chance is never around

It's all part of the process We all love looking down All we want is some success But the chance is never around

How can we show, how to feel Situation ain't so real Chopping wood won't stop the rage We need targets on war we wage

It's all part of the process We all love looking down All we want is some success But the chance is never around

It's all part of the process
We all love looking down
All we want is some success
But the chance is never around

You smash they grab 'til it's gone Attempt to grow and fix undone And I am the way it's all to scale We're all companions on which we sail

It's all part of the process We all love looking down All we want is some success But the chance is never around

It's all part of the process
We all love looking down
All we want is some success
But the chance is never around

It's all part of the process
We all love looking down
All we want is some success
But the chance is never around

It's all part of the process We all love looking down All we want is some success But the chance
