

# Morcheeba, Sao paulo

Waiting in the club lounge  
I slot in so systematicly  
I wanna smash it to pieces  
Release this hatred inside of me  
You know you fill me with passion  
But I just act apologetically  
Im gonna miss you in fashion  
All ashen faced with my deceit  
Sao paulo  
Why am I bringing me down?  
Sao paulo  
If I drink any more I will drown  
Sao paulo  
Why cant I fight truth decay?  
Sao paulo  
My life is just one big cliché  
Another stain on my passport  
I wanna travel so futuristically  
I just wish I could beam up, team up  
And soon be on my way  
You told me wed go to rio  
And you said it so charismatically  
I know its me thats the nightmare  
So fight fair or have some decency  
Sao paulo  
Why am I bringing me down?  
Sao paulo  
If I drink any more I will drown  
Sao paulo  
Why cant I fight truth decay?  
Sao paulo  
My life is just one big cliché  
Sao paulo  
Why am I bringing me down  
Sao paulo  
If I drink any more I will drown  
Sao paulo  
Why cant I fight truth decay?  
Sao paulo  
My life is just one big cliché  
You sure put a spin on my day  
Why am I heading your way  
Everything is coming up grey  
Im just a humble dj
