

Mordechai Ben David, Just One Shabbos

Someday:

Alone in a dark frigid cellar
Alone just a small group of men
When in rushed the soldiers
and led them all away
The flame of Torah flickered on that day
So many tears, so much sorrow
The pain has lasted thousands of years
but soon we'll stop crying
the cruelty will end
and Melech HaMoshiach will be sent
Someday we'll be sheltered and warm
Never will we have to express any fear
Our scars and our wounds will disappear
Avraham and Yitzchok will be there to greet us
Yaakov and his sons will stand by and smile
Moshe Rabbeinu will lead us once again
in Yerushalayim - B'Ezras Hashem
We learn every day and we daven
We ask Hashem please bring those old times back
We all know that your'e listening
of course we know it's true
For I've received the promise and so have you
That Hashem will lead us out of this galus
It won't be too much longer you know why
and then together we're all going to daven
Together we're all going to sing
We're going to praise and thank you Hashem for everything
Someday....
