

Mordor, The Last of the Mohicans

I'm the last
I'm free like...
Like the wind
Stranger than my love
Some people came here
They were far away
They took away my sun
And things I believed
I am alone like a bird
I felt strange pain
Forever in my mind
It will stay
But hope will stay with me
I've got my only son
He'll never let me down
We fight together
I'm the last
I'm free like...
Like the wind
Stranger than my love
I will stay here forever
And hope will stay with me
I'll never be alone
I'm the last of the Mohicans
