Mordor, The Last of the Mohicans

I'm the last I'm free like... Like the wind Stranger than my love Some people came here They were far away They took away my sun And things I believed I am alone like a bird I felt strange pain Forever in my mind It will stay But hope will stay with me I've got my only son He'll never let me down We fight together I'm the last I'm free like... Like the wind Stranger than my love I will stay here forever And hope will stay with me I'll never be aloné I'm the last of the Mohicans
