

Mordor, Visions of Life

Pain - sadness - heaven show me the way show me the way
Fate - madness - heaven show me the way show me the way
My feelings pass away they've so far away so far away
But I believe and still wait so show me the way show me the way
Living in the minds of friends
Living in the minds of strangers I fight to win I fight
Life and pain
Life and pain
Lonely nights and days come together like the heaven
In my eyes meets with the sea
Silence dreams and thoughts come together to become my only way
Life and pain
Pain - sadness - heaven show me the way show me the way
Fate - madness - heaven show me the way show me the way
My feelings pass away they've so far away so far away
But I believe and still wait so show me the way show me the way
