

Morgan Wallen, Me On Whiskey

I know we made a downtown reservation
Let's get there early, get drunk, and break it
There's cabs outside
We could wave and take one
To that little dive bar you like
I know you got your red dress on, but
It was always gonna come back off
So go on and call me crazy
We both know it's just a matter of time
Baby, with

Me on whiskey, and you on wine
Getting Tennessee tipsy in the neon light
Yeah, it's what we do, girl, it's kind of our thing
A little jukebox dance and then a smoky dream
We're as easy as you got your drink, I got mine
But we got the same thing on our mind
I guarantee best times tend to be
With you on wine, and me on whiskey
With you on wine, and me on whiskey

Let's get started on an all-night nightcap
That won't wind down until the break of dawn
And we can keep it rollin' like that 'cause
Right about now, it don't sound wrong
Girl, I know you got all dressed up
Yeah, and now we're getting all messed up
We don't just do it 'cause we're good at it
Yeah, we do it 'cause
We find some good things happen with

Me on whiskey, and you on wine
Getting Tennessee tipsy in the neon light
Yeah, it's what we do, girl, it's kind of our thing
A little jukebox dance and then a smoky dream
We're as easy as you got your drink, I got mine
But we got the same thing on our mind
I guarantee best times tend to be
With you on wine, and me on whiskey
With you on wine, and me on whiskey

Girl, I know you got your red dress on
Sittin' pretty on that old barstool and
We don't ever get enough of this
It's pretty simple, baby, all it is, it's
Me on whiskey, and you on wine
Getting Tennessee tipsy in the neon light
Yeah, it's what we do, girl, it's kind of our thing
A little jukebox dance and then a smoky dream
We're as easy as you got your drink, I got mine
But we got the same thing on our mind
I guarantee best times tend to be
With you on wine, and me on whiskey
With you on wine, and me on whiskey
