

# morphine, Good

you're good, good, good  
good  
you're good, good, good  
you're good  
somethin tells me, somethin tells me, somethin tells me  
you can read my mind  
somethin tells me, somethin tells me, somethin tells me  
you can read my mind  
somethin tells me you can read my mind  
your brain is callin to me one more time  
your brain, your brain, your brain  
is callin to me one more time  
your brain, your brain, your brain  
is callin to me one more time  
you're good  
you push, push, push  
so good  
you push, push, push  
you're good  
somethin tells me, somethin tells me, somethin tells me  
you can read my mind  
somethin tells me, somethin tells me, somethin tells me  
you can read my mind  
somethin tells me you can read my mind  
your brain is callin to me one more time  
somethin tells me you can read my mind  
your brain is callin to me one more time  
your brain, your brain, your brain  
is callin to me one more time  
your brain, your brain, your brain  
is callin to me one more time  
you're good, good, good  
so good
