

# morphine, Good

you're good, good, good

good

you're good, good, good

you're good

somehin tells me, somehin tells me, somehin tells me

you can read my mind

somehin tells me, somehin tells me, somehin tells me

you can read my mind

somehin tells me you can read my mind

your brain is callin to me one more time

your brain, your brain, your brain

is callin to me one more time

your brain, your brain, your brain

is callin to me one more time

you're good

you push, push, push

so good

you push, push, push

you're good

somehin tells me, somehin tells me, somehin tells me

you can read my mind

somehin tells me, somehin tells me, somehin tells me

you can read my mind

somehin tells me you can read my mind

your brain is callin to me one more time

somehin tells me you can read my mind

your brain is callin to me one more time

your brain, your brain, your brain

is callin to me one more time

your brain, your brain, your brain

is callin to me one more time

you're good, good, good

so good
